To whom it may concern,

It is my honor to recommend Rev Martha Creek as a guest speaker and workshop presenter in your church. She recently presented "The Work" here at Unity Church of Life during the Sunday Service and in a workshop that afternoon. Each person present was profoundly affected. She demonstrated a solid knowledge of the information, presented it in an organized and cohesive fashion and had full audience participation.

More importantly, she shared herself in a vulnerable, authentic manner. She not only shared a working knowledge of the information but she shared her first hand personal experience which allowed participants to see themselves in her which fostered a deeper experience for them. She created an environment of love, trust and acceptance so each person felt safe to begin to experiment with the principles themselves.

Rev Martha was an incredible gift to our ministry and community and any community would be greatly blessed by her presence.
